CONFIDENTIAL
Office of the British
Charge d'Affaires,
PEKING.
15 January, 1968
RECEIVED IN
ARCHIVES No. 31
20 JAN 1968
Eg/3
Dear John,
Colleagues from other Western European missions have told us that within the last week or so the Chinese have sent in visa applications for their students to return to the Western countries in which they were studying until the mass return to China in early 1967. In the case of Norway it is the same students who were withdrawn last year who are asking to return, and the visa applications were the first that the Norwegian Embassy here had heard of the move. The French, by contrast, are being asked to take new students, and though their Embassy have only just received the formal applications the Chinese have been corresponding on the subject for some time with the appropriate French organisations. Other Scandinavian countries have also apparently been asked for visas. Indeed one colleague gave us his impression that of the Western European countries which had taken Chinese students up to 1967, only the British had not yet been asked to take them back.
2. This is a further indication that the Chinese are attempting to revert to the status quo in at least some aspects of their foreign relations. There are signs also that they are conducting their annual trade negotiations with the countries concerned at maximum speed in order to catch up on the long back-log; we shall be writing in more detail about this next week, when we have collected more information.
I am copying this letter to Michael Wilford in Washington, Andrew Elliott and Leslie Smith in Hong Kong, Colin Wilson in J.R.D., Frank Prewer in J.R.D. and Reg Hibbert in Singapore.
Yours sincerely
